

When you unpack your EB194 the following should be loose in the box:

These items should be in your box:

Code	Qty	Description	Check
EB019001	1	E-blocks AVR board	
EB0283	1	AVR ISP	
ELSAM	1	CD ROM with datasheets	
	1	Serial cable	
	1	CD Rom	
	1	6 way IDC cable	

EB194 is an E-blocks AVR programming system. It includes the items shown in the table above. Please check that you have these items. This product has been tested before despatch.

Where to find more information

On the ELSAM CD, which is provided with all 'upstream' devices (i.e. Multiprogrammer), is the relevant information for all individual E-blocks. This is in the E-Blocks directory, which includes the following documents: -

- o Installation guide.doc
- o Getting started with E-Blocks.pdf
- o Datasheets on all E-block components

ELSAM is continually evolving and up-to-date datasheets, documentation, F.A.Q.s and software updates can be found at:

www.matrixmultimedia.com/eblocks

Using the following user name and password

User name: eblocks

Password: halifax

You will now have access to up-to-date information that you require.
