

NAG Library Routine Document

X01AAF

Note: before using this routine, please read the Users' Note for your implementation to check the interpretation of ***bold italicised*** terms and other implementation-dependent details.

1 Purpose

X01AAF returns the numerical value of π .

2 Specification

double precision FUNCTION X01AAF(X)
double precision X

3 Description

None.

4 References

None.

5 Parameters

1: X – *double precision* *Dummy*

6 Error Indicators and Warnings

None.

7 Accuracy

The result should be correct to *machine precision* (see Chapter X02).

8 Further Comments

None.

9 Example

None.
